Real Estate Finance, online text

Course Description

Real Estate Finance covers basic finance principles. You will learn about the impact of financial markets on real estate transactions and the growing role of technology in financing. You will also learn about the many options that are available to homebuyers.

Course Objectives

After completing this course, you will be able to:

1. Recall the cyclical nature of real estate finance and its impact on the interaction of markets and the economy.
2. Differentiate between fiscal and monetary policies and designate the government agencies responsible for their implementation.
3. Recall lending legislation and specify the government entities responsible for their regulation and implementation.
4. Recognize the purpose of and participants in the mortgage markets.
5. Recognize the types of lenders and loan originators, and the difference among fiduciary, semi-fiduciary, and non-fiduciary lenders.
6. Differentiate among loan amortization types and specify features of real estate loans.
7. Identify and differentiate among conventional loan programs.
8. Identify and differentiate among various types of alternate financing options.
9. Recall the purpose and features of government-backed loan programs.
10. Distinguish among types and features of real estate finance instruments.
11. Recall aspects of the real estate loan origination process, including the application and Loan Estimate.
12. Recall the importance of underwriting in the real estate loan process.
13. Recognize elements of the settlement process.
14. Identify facets of loan default and related procedures, as well as aspects of the foreclosure process.

Grading/Evaluation Policy

Performance is measured by successful completion of online exercises, quizzes, and examinations. To successfully complete this course, students must complete: 10 units including all reading and exercises, and successfully pass 10 Unit Exams, 3 Case Studies, and a Final Exam. A minimum passing score of 100% is required on all unit exams and case studies. A minimum of 70% or better is required on the final exam. Assignments with scores below the required minimum must be retaken until the score meets or exceeds the requirement. If you do not pass the final exam, you are allowed to retake it.
